Subject: RE: Mar 2020 BCT follow-up
Attachments: BCT Action Item Status_mar_2020 conference call_Williams.doc

Hi all - as Cathy's e-mail is having trouble today, she asked me to send a couple things as follow-up to our BCT call today. One is the attached action item list (which you may also get from Don) and the other is information on which hydrasleeve bag had to be replaced due to the initial bag tearing. For the PFOS/PFOA sampling, ST012-C02 had the tear and there was not enough water to collect the planned sample. ST012-034 and ST012-W38 were retrieved successfully.
